COVER: Deployment and movement exercises such as Golden Cargo '98 prepare the Army for real-life missions. The 3d COSCOM, an Army Reserve unit based in Des Moines, Iowa, and Army National Guard units in Nevada and Utah participated in this national exercise that quickly moved explosive materials through several states. Counter-clockwise, the photos show a driver transfer point, a soldier performing a maintenance check, trucks lined up at the staging point, and arrival of trucks at the end of the convoy mission. Several articles in this issue, such as the one beginning on page 28, describe movement operations.

This medium is approved for the official dissemination of material designed to keep individuals within the Army knowledgeable of current and emerging developments within their areas of expertise for the purpose of enhancing their professional development.

By Order of the Secretary of the Army:

DENNIS J. REIMER
General, United States Army
Chief of Staff
